

Ecosystems Project

Group Members: _____

Assignment #1

Choose one ecosystem to research and learn about. Present your findings on a poster or powerpoint presentation.

1. Where is your ecosystem located?
2. Which abiotic factors are present? (describe each one - for example what is the temperature like)
3. Which biotic factors are present? List as many as you can find.
4. Which types and how many populations exist?
5. Draw and describe at least one food chain that would be found in this ecosystem?
6. Draw a food web for this ecosystem
7. Which types and how many populations exist?.
8. Is this ecosystem at risk in any way? If so, what is the risk?
9. What actions should be taken/avoided to ensure this ecosystem is sustainable?

Notes:
